

INTEGRATED QUALITY, HEALTH AND SAFETY, ENVIRONMENTAL POLICY

In FOCCHI GROUP OF COMPANIES we believe that the development and success of our company is based on the ability to satisfy our customers, through the continuous improvement of our organisation, the enhancement of people working in it and a constant search for innovative, performing, efficient and sustainable technological solutions.

The implementation of an Integrated Quality, Health and Safety and Environmental Management System (ISO 9001, ISO 45001 and ISO 14001) represents for our company an essential commitment to reach our growth and business goals.

Therefore, FOCCHI GROUP OF COMPANIES endeavours to comply with applicable legal requirements, relevant standards and any other statutory requirements, these are essential to the continuous improvement of the Integrated Management System.

In today's context, characterized by an increasing market demand, a constantly growing competition and globally recognized needs for sustainability, yet without neglecting people's safety and wellbeing, we are committed to quality, safety and environment as defined in the following points.

Quality Commitment:

- identifying the needs of customers and stakeholders and constantly pursuing their satisfaction.
- ensure that the quality of our products and services are controlled, including those of our subcontractors and suppliers.
- constantly verifying all production phases (design, procurement, manufacturing, delivery, installation) in order to guarantee the required quality, defining information flows, responsibilities and operating methods.
- researching and developing innovative technologies to create more and more performing and unique products, without sacrificing aesthetics, committing to *"make beauty tangible"*.
- establish measurable quality objectives to monitor our quality performance, review our system regularly and ensure continuous improvement by defining and implementing corrective actions.

Health, Safety and Wellbeing Commitment:

- ensure that work related hazards are identified eliminated or reduced to an acceptable level by accurately assessing any possible risk for workers, according to the activity they carry out, promoting proactive actions to significantly reduce any probability of incidents, accidents, and any possible occupational disease occurrence.
- promoting and ensuring that health and safety procedures are complied with as a requisite for good working practice, being also responsible towards anyone on the FOCCHI facilities and sites, such as contractors, customers, visitors, and member of the public, ensuring they are not exposed to risks to their health, safety and wellbeing.
- comply with applicable legal requirements and other regulations related to FOCCHI activities.
- procure and maintain safe plant and equipment; to ensuring safe handling and use of articles and substances and to providing relevant information, instruction, and supervision for our employees.
- consult and communicate with our employees on health and safety matters and use their knowledge and expertise to reinforce this commitment.

Sustainability Commitment:

- ensure that energy and any natural resources used, waste produced, and pollutant emissions generated are managed to prevent pollution and control the impact they have in the natural environment.
- assess the environmental impacts associated with FOCCHI and the product life cycle, identifying, and implementing the necessary measures to control and minimise them.
- approaching the design of each façade system with the utmost attention to its energy cost, its life cycle, and the overall level of sustainability that the building will guarantee.
- seeking for constant improvement of its organisation such as, participation and involvement of human resources, customers, designers, and suppliers in the life cycle assessment, setting specific performance objectives and targets, periodically reviewed.

The policy is communicated to all persons working under or on behalf of FOCCHI with the intent that they are made aware of their individual involvement in the Integrated Management System and their obligations.
